

GoFetch e-commerce

ABOUT:

GoFetch's new e-commerce features makes it easier for businesses to deliver.

Many of GoFetch's business users already allow their customers to access eCommerce platforms to add items to cart and check out. Now they can add a 'Deliver' button and get their customers to load the pick up and drop off details themselves.

Shopify is a complete ecommerce solution that allows you to set up an online store to sell your goods" - shopify website

"WooCommerce, as a part of Wordpress, is a free eCommerce plugin that allows you to sell anything, beautifully. - wordpress website

GoFetch now works with both shopify and Woocommerce to give e-commerce businesses the freedom to seamlessly integrate with GoFetch's large network of Fetchers. This saves your staff crucial data entry time.

How it works:

1.

If you are using Shopify, ensure that you have shipping module enabled.

TIP: Contact Shopify to get the shipping module without upgrading your plan to Advanced and paying hundreds of dollars a month, if you are on a budget.

2.

Contact us at info@go-fetch.com.au to get an exclusive installation link

3.

Your business is all set!

All your orders will now launch corresponding delivery jobs in Go-Fetch's system, and our fetchers will deliver your orders to your customers.
